Description

DTMC Recruitment 2023

The Technical Specialist in DTMC is responsible for developing and implementing discrete-time Markov chain (DTMC) models to solve a variety of business problems. This includes working with stakeholders to understand their needs, designing and implementing DTMC models, and interpreting the results of the models. The Technical Specialist in DTMC must have a strong understanding of DTMC theory and be able to apply it to real-world problems. They must also be able to work independently and as part of a team.
