### Description

## Infosys Recruitment 2024

Are you an Oracle SQL whiz with a passion for data and building efficient systems? Do you thrive in a collaborative environment and enjoy tackling complex challenges? Then Infosys wants you!

We are searching for talented and motivated individuals to join our growing team as an Oracle SQL Developer. This remote position allows you to contribute your skills and expertise from anywhere in the world.

### Why Join Infosys as an Oracle SQL Developer?

Infosys is a global leader in next-generation digital services and consulting. We empower businesses to navigate their digital transformation journeys with cutting-edge solutions and deep industry expertise. Here's what makes Infosys a great place to work:

- **Make a Real Impact:** You'll play a vital role in developing and maintaining critical database applications that power our clients' operations. Your work will directly contribute to their success.
- **Continuous Learning:** We are dedicated to fostering a culture of continuous learning and development. You'll have access to a wealth of training resources and opportunities to expand your skillset.
- **Global Exposure:** Infosys operates in 45 countries, providing a platform to collaborate with diverse teams and gain exposure to international projects.
- **Work-Life Balance:** We believe in a healthy work-life balance and offer flexible work arrangements to support your personal needs.
- **Competitive Compensation & Benefits:** We offer a comprehensive

benefits package that includes health insurance, paid time off, and retirement savings plans.

### **Job Summary**

In this role, you will be responsible for the design, development, implementation, and maintenance of complex database applications using Oracle SQL. You will work closely with business analysts, designers, and other developers to ensure the efficient and secure management of our clients' data.

### **Infosys Jobs Near Me**

As a remote position, this opportunity is open to qualified candidates from all locations.

### **Key Responsibilities:**

- Design and develop database schemas using Oracle SQL.
- Write efficient and maintainable SQL queries to retrieve, manipulate, and analyze data.
- Implement stored procedures, functions, and triggers to automate database tasks.
- Optimize database performance through indexing, partitioning, and other techniques.
- Perform unit testing and integration testing on database applications.
- Collaborate with business analysts and developers to understand data requirements and translate them into technical solutions.
- Document database design decisions and code for future reference.
- Stay up-to-date with the latest trends and technologies in Oracle SQL.

### **Required Skills and Qualifications:**

- Bachelor's degree in Computer Science, Information Technology, or a related field (or equivalent experience).
- Minimum of 2+ years of experience in developing database applications using Oracle SQL.
- Strong understanding of relational database concepts, including normalization, data modeling, and SQL queries.
- Proficiency in writing complex and efficient SQL queries.
- Experience with stored procedures, functions, and triggers.
- Excellent analytical and problem-solving skills.
- Strong communication and collaboration skills.
- Ability to work independently and as part of a team.

### **Experience:**

This position is open to both experienced professionals and recent graduates with a strong foundation in Oracle SQL.
