Description

Job Vacancy Work From Home In Capgemini

As a Junior Web Developer, you will play a key role in the development and maintenance of high-quality web applications and websites. You will work closely with senior developers, designers, and product managers to translate concepts into user-friendly and functional digital experiences. This is an excellent opportunity to gain valuable experience in a fast-paced and collaborative environment, and contribute to the success of a leading global company.

Capgemini Careers

Responsibilities:

- Participate in the full development lifecycle of web applications, from front-end to back-end development.
- Implement and maintain clean, efficient, and well-documented code according to established coding standards.
- Collaborate with designers and product managers to translate user stories and requirements into functional features.
- Conduct thorough testing and debugging to ensure the quality and performance of web applications.
- Stay up-to-date with the latest web development technologies and trends.

Capgemini Jobs Near Me

Skills:

- Strong understanding of front-end development languages like HTML, CSS, and JavaScript (jQuery, React, etc., a plus).
- Knowledge of back-end technologies like PHP, Python, or Java (a plus).
- Familiarity with version control systems (Git, SVN).
- Excellent analytical and problem-solving skills.
- Strong communication and collaboration skills.
- Ability to work independently and as part of a team.
