Description

Meesho Recruitment 2023

The Administrator is responsible for the day-to-day administration of Meesho's database infrastructure. This includes designing, implementing, and managing the database infrastructure in the cloud, as well as collaborating with developers and DevOps/SRE engineers to ensure that the databases are running smoothly and securely. The Administrator will also be responsible for monitoring the performance of the databases and making recommendations for improvements.

Meesho Careers

Responsibilities:

- Design, implement, and manage the database infrastructure in the cloud.
- Collaborate with developers and DevOps/SRE engineers to ensure that the databases are running smoothly and securely.
- Monitor the performance of the databases and make recommendations for improvements.
- Manage the access and allocation of data to users and applications.
- Perform backups and restores of the databases.
- Troubleshoot database problems.
- Stay up-to-date on the latest database technologies.

Meesho Jobs Near Me
