Full-time

(adsbygoogle = window.adsbygoogle || []).push({});

Description

QA Engineer In TCS

As a QA Engineer, you'll play a crucial role in upholding the highest quality standards for our projects. You'll work closely with developers, product managers, and other stakeholders to design, execute, and document comprehensive test plans. You'll be responsible for identifying and reporting defects, collaborating with developers to resolve them, and ensuring timely delivery of high-quality software.

TCS Careers

Responsibilities:

- Design, develop, and execute test plans covering various functionalities and integrations.
- Conduct manual and automated testing across different platforms and devices.
- Analyze test results, identify defects, and document them clearly and concisely.
- Collaborate with developers to reproduce and resolve defects efficiently.
- Stay updated on the latest testing methodologies and tools, and suggest improvements to the testing process.
- Contribute to the continuous improvement of test automation frameworks and scripts.

Hiring organization

Tata Consultancy Services

Date posted

February 24, 2024
