Description

TCS Recruitment 2024

Are you passionate about creating user-centric interfaces that are both beautiful and functional? Do you thrive in a collaborative environment where innovation is encouraged? If so, then a career as a Front-End Developer at Tata Consultancy Services (TCS) might be the perfect fit for you!

TCS Jobs Near Me

TCS is a leading global IT services, consulting, and business solutions organization that works with many of the world's largest companies. As a Front-End Developer at TCS, you'll play a vital role in shaping the user experience for cutting-edge applications and digital experiences.

About TCS

TCS has been a pioneer in the IT industry for over 50 years, and is well-known for its commitment to innovation, client satisfaction, and employee development. The company offers a dynamic and challenging work environment, with opportunities to work on a wide range of projects and technologies. Additionally, TCS is a remote-friendly company, allowing you to work from the comfort of your own home or office.

Summary

We are searching for a talented and motivated Front-End Developer to join our

Hiring organization

Tata Consultancy Services

Date posted

March 21, 2024

Valid through

31.08.2024

APPLY NOW

growing team. In this role, you will be responsible for the design, development, and implementation of user interfaces (UIs) for web applications and digital products. You will work closely with designers, back-end developers, and other stakeholders to ensure that our applications are not only functional but also visually appealing and user-friendly.

```

TCS Careers

Key Responsibilities

- Collaborate with designers and back-end developers to translate design concepts into functional and responsive UIs.
- Develop clean, well-documented, and maintainable code using HTML, CSS, and JavaScript frameworks like React, Angular, or Vue.js.
- Implement responsive design principles to ensure that UIs render seamlessly across different devices (desktops, tablets, and mobile phones).
- Stay up-to-date on the latest front-end development trends and technologies.
- Participate in code reviews and contribute to the overall quality of the codebase.
- Write unit tests to ensure the quality and maintainability of your code.
- Work effectively with project managers to meet deadlines and deliver high-quality work.

Required Skills and Qualifications

- Bachelor's degree in Computer Science, Information Technology, or a related field (or equivalent experience).
- Minimum of 1 year (for freshers) to 3+ years (for experienced) of experience in front-end development.
- Strong understanding of HTML, CSS, and JavaScript.
- Proficiency in a front-end development framework like React, Angular, or Vue.js (a plus).
- Experience with responsive web design (RWD) principles.
- Excellent communication and collaboration skills.
- Ability to work independently and as part of a team.
- Strong problem-solving skills.
- A passion for creating user-friendly and visually appealing interfaces.

Experience

This role is open to both freshers and experienced candidates. For freshers, a strong academic background in computer science and a passion for web development is essential. Experienced candidates should have a proven track record of success in front-end development and a solid understanding of the latest technologies and trends.
