Description

TCS Recruitment 2024

About Tata Consultancy Services (TCS):

Tata Consultancy Services (TCS) is a leading global IT services, consulting, and business solutions organization. We work with many of the world's largest businesses across industries, helping them achieve their business goals through the power of technology. TCS is known for its innovation, dedication to client success, and diverse and inclusive work environment.

Why Join TCS as a Programmer?

As a Programmer at TCS, you'll play a vital role in developing cutting-edge software solutions for our global clientele. You'll collaborate with a talented team of professionals in a remote setting, leveraging your programming expertise to design, develop, and test high-quality applications. TCS offers a dynamic and stimulating work environment that fosters continuous learning and professional development. You'll have the opportunity to work on a wide range of projects, gain exposure to diverse technologies, and contribute to the success of a global organization.

Position: Programmer

Company: Tata Consultancy Services (TCS)

Location: Remote (Anywhere)

Hiring organization

Tata Consultancy Services

Date posted

March 18, 2024

Valid through

31.08.2024

APPLY NOW

Job Summary:

We are seeking a passionate and skilled programmer to join our remote team. In this role, you'll be responsible for the entire software development lifecycle, from understanding requirements to designing, coding, testing, and deploying applications. You'll work closely with business analysts, project managers, and other developers to ensure the successful delivery of high-performance software solutions.

TCS Careers

Key Responsibilities:

- Analyze user requirements and translate them into technical specifications.
- Design, develop, test, and debug software applications using various programming languages and technologies.
- Write clean, efficient, and well-documented code that adheres to coding standards and best practices.
- Collaborate with team members to identify, troubleshoot, and resolve technical issues.
- Conduct unit testing and participate in integration testing to ensure software quality.
- Stay up-to-date with the latest programming languages, frameworks, and technologies.
- Maintain and enhance existing software applications.
- Prepare technical documentation for developed applications.

Required Skills and Qualifications:

- Bachelor's degree in Computer Science, Information Technology, or a related field (or equivalent experience).
- Minimum 1 year of experience in software development (for experienced candidates) or strong academic foundation in programming concepts (for freshers).
- Proficient in at least one high-level programming language (e.g., Java, Python, C++).
- Working knowledge of software development methodologies (e.g., Agile, Waterfall).
- Understanding of object-oriented programming principles.
- Excellent problem-solving, analytical, and critical thinking skills.
- Strong communication, collaboration, and interpersonal skills.
- Ability to work independently and as part of a team.

Experience:

This role is open to both experienced programmers and talented freshers. For experienced candidates, a minimum of 1 year of software development experience is required. Fresh graduates with a strong academic foundation in programming concepts and a passion for learning will also be considered.
